THE COMPANY

MAK S.p.A., manufacturer of alloy wheels since 1991, represents today an established brand, recognized among the major leaders in the sector both on the national and on the international scene. The main elements of MAK's success are the high quality standards, the wide variety of the product range, the speed in responding to the market needs and the high flexibility in planning and customizing orders. Thanks to a fully stocked warehouse, with more than 120.000 wheels and about 4.000 items, MAK quickly reaches the customer through fast deliveries all over the world.

Made in Italy design and quality distinguish the company, which is finding growing acceptance especially in the segment of medium-high range cars.

L'AZIENDA

MAK S.p.A., azienda produttrice di ruote in lega nata nel 1991, rappresenta oggi un marchio affermato riconosciuto tra i maggiori leader del settore tanto nel panorama nazionale quanto in quello internazionale. Gli elementi principali del successo di MAK sono gli elevati standard di qualità, l'ampia varietà della gamma prodotti, la velocità nel rispondere alle esigenze del mercato e l'elevata flessibilità nella pianificazione e personalizzazione degli ordini. Grazie a un magazzino sempre fornito, con più di 120.000 ruote e circa 4.000 articoli, MAK raggiunge velocemente il cliente attraverso consegne rapide in ogni parte del mondo.

Design e qualità Made in Italy contraddistinguono l'azienda, che trova un crescente consenso soprattutto nel segmento delle vetture di fascia medio-alta.

HOMOLOGATIONS

All **MAK** wheels are homologated according to each country regulations. MAK range is always up-to-date thanks to a constant and strong effort during the homologation process, test and quality check. Along with each wheel MAK provides the required homologation paper, granting the conformity of the wheels mounted on your car.

MAK laboratory achieved the **VIA certification and accreditation from the Ministry of Infrastructure and Transport** to proceed with the required tests for the approval of its products. Companies are awarded with these certifications only after a careful scrutiny by the competent authorities, who recognized MAK the necessary quality to test their products.

OMOLOGAZIONI

Tutte le ruote **MAK** sono omologate secondo le normative vigenti nei vari paesi del mondo. Un costante e intenso impegno nelle fasi di omologazione, di test e di controllo qualità, permette alla gamma MAK di essere sempre aggiornata. Ogni ruota è corredata dalla necessaria documentazione che garantisce la regolarità del prodotto montato sulla vostra auto.

Il laboratorio **MAK** ha conseguito la **certificazione VIA e l'accreditamento dal Ministero delle Infrastrutture e dei Trasporti** per lo svolgimento dei test necessari all'omologazione dei propri prodotti. Queste certificazioni vengono attribuite solo dopo una scrupolosa verifica da parte degli enti competenti, che ne riconoscono la qualità necessaria e idonea a testare i propri prodotti.

NEW PAINTING PLANT 4.0

In 2022 MAK inaugurated its new 6.200 m2 painting plant. **Belonging to the Industry 4.0 class**, it was designed and built following the latest technologies that enable complex analyses through Big Data and real-time adaptations of Production. The highly automated plant, with a production capacity of 300 wheels/hour, ensures higher quality and better control and capacity of the production chain with greater continuity over time. The issue of **environmental sustainability** is one of the challenges for the company, which is **investing in the use of alternative energies, the recovery of production waste and the optimization of logistics**. Finally, the Research & Development department is constantly striving to improve the production process in order to guarantee the end consumer a product of high and ever better quality.

NUOVO IMPIANTO DI VERNICIATURA 4.0

Nel 2022 MAK ha inaugurato il nuovo sito produttivo su una superficie di 6.200 m2 che comprende il moderno impianto di verniciatura **realizzato secondo i protocolli di Industria 4.0**. Il nuovo reparto è stato progettato e costruito secondo le più recenti tecnologie in grado di consentire analisi complesse attraverso Big Data e Adattamenti in tempo reale della produzione. L'impianto altamente automatizzato, con una capacità produttiva di 300 ruote/ora, garantisce miglior qualità, controllo più accurato e costanza e continuità nel tempo. Il tema della **sostenibilità ambientale** è una delle sfide più importanti per l'azienda, che sta **investendo nell'utilizzo di energie alternative, nel recupero delle emissioni, degli scarti di produzione e nell'ottimizzazione della logistica**. Infine, il reparto Ricerca e Sviluppo è costantemente stimolato nel miglioramento del processo produttivo al fine di garantire al consumatore finale un prodotto di sempre miglior qualità.
