

SELF-PRIMING PUMP FOR DIESEL, HEATING OIL 12V.

Description

SELF-PRIMING PUMP FOR DIESEL AND HEATING OIL 12V

Professional, solid and FAILURE-FREE mini CPN in both workshop and home/garage applications. The ability to connect the power supply to the car battery allows you to use it even in road conditions. Pump for connection to 12V, self-priming - which means that it does not need to be primed. The pump is used for pumping diesel, heating and thin engine oils (it is forbidden to use it for water and other water-based liquids).

TECHNICAL DATA:

- Supply voltage: 12V
- Power: 160W
- Pump capacity: 50 L/min
- Self-priming
- Maximum liquid lifting height: 4m

Compared to other models, the pump is characterized by increased durability, efficiency and work culture.
The pump is equipped with a cable with clamps to connect the pump to the power source.

KIT CONTENTS:

- PUMP
- CONNECTIONS
- O-RINGS
- TEETH
- ZIPPERS
