

# AGO50L

## PRODUCT GUIDE

### Wheel Aligners

Car 4 Wheel Laser Aligner (Tracking Gauges)

The AGO50L is our entry level 4 wheel laser aligner. The business end is exactly the same as all the other Car 4 wheel laser aligners. What differs is a space saving wall bracket and basic accessories, and obviously price...

It's the perfect alternative if you want all the professional benefits of our other range of 4 wheel aligners but are limited for space and Budget conscience.

However, with minimal moving parts, no wires, pin sharp laser images & rechargeable batteries all add up to one seriously versatile Wheel Aligner. Actually, It has no equal or rival in build quality, design & global pricing.

Like all our Aligners, it's quick, it's simple to use, it's well priced and it's built to last.
